

Directions to Chalet Emma (No.225) by Road from Geneva Airport

Dual carriageway from Geneva to Sion via E62 then turn off at jn. 27 for the trip up the mountain

Distance Geneva to Sion say 1.75 hrs then maybe 30 minutes up to chalet

Please be aware of road conditions especially on the climb from the dual carriageway – you may need to stop to fit the snow chains which you need to have hired with your car

Exit Geneva Airport and make for Lausanne via E62 which you must continue to follow (ultimate direction Simplon Brig) – goes to Sion and beyond. You will leave the rental car underground garage and stay left – this brings you straight onto the E62 dual carriageway

Be careful near Lausanne – be sure to stay in a lane in direction Simplon and/or Brig

Stay on E62 until exit junction 27 Sion-est – set the speedo to zero km at the top of the slip road – at these distances from zero you should be taking the next turning:

0.0km At top of slip turn right towards Val d'Hérens

0.8km Go straight over next 2 roundabouts direction Val d'Hérens – you will then start the ascent from the Rhône valley

7.1km Stay on this road to Vex – in town centre turn right to Thyon-les Collons

9.3km Follow road to junction and take right turn to Thyon-les Collons (just before a petrol station)

10.1km Go past the bear ! keep going

16.2km Follow road to hairpin junction and turn left to **Les Masses and Mayens-des-Renduez** at a bus stop – you must wait for *this* turning to Les Masses which is the third you will see

17.1km Follow road to junction with the hairpin of another road – turn right up the hill past dustbins on Route de la Brecca

17.9km Follow road to first hairpin – turn left onto Chemin du Tunnel

18.1km Take first turning on left (very tight left-hander), downhill (signed 225)

The first turning to the right within 30m is the top of our drive (again signed 225) – **Chalet Emma** is at the bottom of that drive on the right

Please stay parked at the top of the drive and contact the Chalet for further instructions

If you go through a tubular steel road tunnel under the piste then you have gone too far on Chemin du Tunnel and need to come back to our turning

Chalet telephone numbers: 0041 (0) 27 281 1560 or mobile 0041 (0) 7953 70113 – include 0041 and omit the 0 if calling from a UK source (including your UK mobile calling in Switzerland) – start with the 0 if calling from a Swiss telephone
